WORK EXPERIENCE

Fontend Developer

Cry

01/2024 - 07/2024

Tasks

- Revamped the Cry.org website.
- Tech Stack used - Reactjs, Tailwind CSS

PERSONAL PROJECTS

IMDB Clone

- This is a React-based web application that delivers the latest movie from various sources using the TMDB Api. The app fetches real-time Movie data and presents it in an organized, user-friendly interface. Key features of the Reat IMDB App include:
- **Watchlist Feature:** Developed a dynamic watchlist where users can add items and reorder them based on ratings in both ascending and descending order.
- **Filtering Options:** Implemented advanced filtering capabilities, allowing users to filter movies and TV shows by category.
- **Search Functionality:** Added a powerful search feature enabling users to quickly find movies and TV shows by name in watchlist only.
- **Technologies:** React.js, Tailwind CSS, TMDB Api

Netflix Clone

- This is a React-based web application that delivers the latest movie from various sources using the TMDB Api. The app fetches real-time Movie data and presents it in an organized, user-friendly interface. Key features of the Reat Netflix App include:
- **Authentication Implementation:** Integrated Firebase authentication for secure user login and registration, ensuring a smooth and secure login process
- **Movie Recommendations:** Implemented a recommendation system using the GPT API to suggest movies based on user preferences
- **Technologies:** React.js, Tailwind CSS, Firebase, TMDB API
